

About ASM :

ASM International, the world's largest association of metal focused materials engineers, scientists, technicians, educators & Students, serves as the central resource that gathers the latest applied information from the field and disseminates back to the industry, academia & government through published material like handbooks, courses, conferences, exhibitions and local chapter engagement.

How does ASM International provide value ?

It acts as a catalyst for various professional activities. It advances the development of materials, fuels a passionate sense of community, elevates the importance of our profession and energizes members to attain new levels of success and satisfaction.

ASM International – Bengaluru Chapter :

Bengaluru Chapter continuously serves its members and materials community by providing high quality materials information, education & training, networking opportunity and professional development resources in cost effective manner. The Chapter also conducts technical talks, on-site courses, Conferences, and expositions etc in the area of Material Science. It is our endeavour to conduct regular programmes on :**Metallurgy for the Non-Metallurgist, Advances in Heat Treatment, Failure Analysis, Corrosion Control, Metallography and Thermal Spray.**

Thus the Chapter provides a platform for material users, developers & manufacturers to converge and stimulate innovation.

You are therefore, sincerely requested to kindly take advantage of this great opportunity and become a part of ASM family. Please contact :
